Copyright Business Wire Jan 31, 2000

CHICAGO--(BUSINESS WIRE)--Jan. 31, 2000--Dynamic Trade Inc. announces an improved approach to developing affiliate marketing programs and is already helping online marketers move toward more profitable 'pay-for-performance' partnerships. The company is first to help marketers use performance marketing programs to fix customer/ order acquisition costs and boost sales - all without adding additional personnel. By allowing for a complete outsourcing of advanced technology and enhanced support services, Dynamic Trade acts as an extension to its customer's e-commerce team - filling a clear void created by 'technology-centric' providers in the affiliate marketing space. Further, through its service-centric approach, the company is first to help marketers move beyond affiliate marketing by helping them focus on securing highly targeted, more productive performance-driven partnerships.

As noted by [Forrester Research](#) in its October, 1999 report, "New Affiliate Marketing Models," marketers are struggling to create profitable affiliate channels - largely due to the many administrative and operational challenges involved in managing thousands of relationships. Keying on this need, Dynamic Trade offers the industry's first full-service e-marketing package that proactively builds and maintains performance marketing channels. Moving beyond requisite tracking and reporting technology, Dynamic Trade delivers services in vital areas:

[Table]

-- Network Services: Dynamic Trade's dedicated staff provides marketers with a focused approach to explore, target and

negotiate partnerships; plus, the company offers operational

support services including affiliate tech support,

communications, and payment services - all geared to help

marketers cope with administrative concerns and drive promotions

through affiliate channels.

[Table]

-- Advanced Technology: Dynamic Trade's ConnectCommerce(TM)

provides

sophisticated technology that delivers Web-based tracking and

reporting, mass and targeted network message updates, automated

and simultaneous product updates, as well as a host of other

features.

"Theoretically, the 'associate with many' concept behind affiliate programs is a sound one," says Dynamic Trade president and founder, James Crouthamel. "In practice, however, marketers are making two mistakes - under-investing in channel development and management, as well as taking an overly quantitative approach to affiliation. Our business development and operational support services provide marketers with a rapid, cost-effective means to take action on both issues."

Dynamic Trade's service philosophy is tied directly to the fact that a majority of affiliate network vendors supply good technology solutions, but they fall short in helping marketers to 1) correctly qualify and target partnerships; and 2) fully develop and manage these relationships. Inherently, Dynamic Trade provides deeper and more profitable ties with a focused group of content, community, incentive, loyalty and affinity-oriented Internet properties, such as Womenconnect.com, Give2schools.com, and MyPoints.com. Many of these properties are eager to provide shopping opportunities to their visitors or members via performance-based, revenue sharing relationships with marketers.

"Our affiliate program has exceeded our expectations to date," says Karen Gilliland, Director of Electronic Commerce at Hammacher Schlemmer. "We are confident that our relationship with Dynamic Trade will allow us to meet our objectives by focusing on affiliates that best fit our profile."

"While some marketers are striving to increase their sheer quantity of affiliate relationships, Dynamic Trade has emerged with a quality-focused approach that challenges the fundamental concept underlying most affiliate programs - the notion that connecting to tens of thousands of smaller Web sites is the true metric for success," says Derek Schwitters, manager of affiliate relations for Seattle-based greatfood.com. "We find a focused affiliate networking approach to be much more profitable in terms of increasing sales and securing new customers."

Affiliates are also pleased with Dynamic Trade's highly focused and hi-touch approach. "The technology and marketing challenges involved in connecting Quixtar Partner Stores with our Internet-based business are significant," says Jack Schripsema, Partner Store Manager for Quixtar.com, one of the most successful shopping sites on the Internet. "In order to provide our affiliated Independent Business Owners (IBOs) with their monthly bonus checks, we require Quixtar's Partner Stores to track purchases made using the identification numbers we've provided to each of our IBOs, Members and Clients - not to mention our EDI-based reporting requirements on the

back end," adds Schripsema. "Most of our Partner Stores are not ready to tackle such challenges on their own, nor are they able to commit the resources necessary to track the merchandise they sell through Quixtar. We have found that Dynamic Trade has helped our Partner Stores overcome many of these obstacles and achieve remarkable results."

Marketers have much more to gain through an aggressive, yet selective approach to partnering. This type of strategy requires more than reliable, scaleable tracking and reporting technology. It demands a team of experienced professionals who provide value to marketers as well as affiliate partners, and this is what Dynamic Trade provides - technology, services, and focused expertise on an outsourced, pay-for-performance basis.

About Dynamic Trade Inc.

Since 1998, Dynamic Trade Inc., (<http://www.dynamictrade.com>) has become a leading provider of performance-based marketing programs, including affiliate networks. The Chicago-based company helps e- marketers increase sales and simultaneously reduce customer acquisition and retention costs by facilitating revenue-share relationships with the Internet's most productive properties in the content, community and shopping aggregation categories. By offering online marketers a full-service solution suite based on advanced technology, enhanced service and market focus, the company is first to present online marketers with a complete outsourced solution for developing, managing and exploiting productive e-commerce partnerships. Uniquely, Dynamic Trade profits only from the success of the alliances that it creates and manages.

James Crouthamel, founder and president, is leading Dynamic Trade's aggressive market approach. Crouthamel is formerly of FastParts, the first Internet-based business-to-business 'pay-for- performance' auction service which was chosen by Upside Magazine as one of its "Hot 100" private companies for 1997. Dynamic Trade is backed by several organizations from Chicago's investment community, including Graystone Venture Partners and KB Partners, and Bluemenstein Thorne Information Partners.

Dynamic Trade provides performance-based marketing programs to Hammacher Schlemmer, Neimen Marcus, [iOrvis](#), [iSpiegel](#), The Bradford Exchange, greatfood.com, Lionel, Foster & Gallagher, J.C. Whitney, Magellan's, AtYourOffice.com, and many others.

Marketers seeking productive and profitable performance-based programs may obtain more information about Dynamic Trade at [http:// www.dynamictrade.com](http://www.dynamictrade.com) or by calling (312) 644-6515.
